

Wynne Alex Design Services: Ashbury Heights Home

Any great interior must resonate with its location and architecture but moreover, it must speak to its owners. This eclectic residence does just that; its personality celebrates a multitude of styles, old and new, east and west. Our clients, seasoned travelers and collectors, came to us with a specific vision: to create a comfortable and sophisticated space while paying tribute to their time spent abroad and particularly celebrate an Asian ethos. We thus carefully set out to create an atmosphere that feels organic and rich by way of color, objet d'art, and furniture. This home is both timeless and intriguing.

If you are a homeowner seeking interior design services, please call us (415) 922 1600. Our experienced design associates are happy to guide and assist you.
